## ► Skills

**Proficient With:** JavaScript, TypeScript, HTML, CSS, NodeJS, Express.JS, React, Redux, Context API, Mongoose.JS, RESTful Web Services, Swagger-UI, NginX, Bootstrap, Material-UI, Git, GCP, GitHub Pages, Heroku, MongoDB, Agile Methodology, Python, C# .NET Framework and Core (MVC), Microsoft SQL Server, MySQL.

**Familiar With:** Docker, Jenkins, GitHub Actions.

## ⚙️ Projects

### Vanilla Node.js App-Monitor Backend API

// Core Node.js (No-Npm)

- Designed and developed a REST service backend for monitoring the HTTP/HTTPS services registered by the user, they'll be notified by SMS when the service does DOWN.

## 👤 Personal Details

Date Of Birth: 27th August 1996

Nationality: Indian

Address: Flat No. 501/4B, Regal Town, Awadhpuari, Bhopal, M.P. - 462022

## 💡 Summary

A Software Engineer with B.Tech.(I.T) degree and 2.5 Years of Industry as well as Freelance Experience of developing scalable Desktop and Web Applications as well as Video Games and a Coding Bootcamp Graduate with extensive background in JavaScript, Python and C#. Specializes in Full Stack Web Development with NodeJs and ReactJs, to develop and deploy websites from the ground up.

## 📘 Professional Experience

### Full Stack Developer Bootcamp @ The Hacking School

June 2020 - January 2021 // Hyderabad, TS, India

- Learned Full Stack Web Development and developed projects to gain experience in skills in HTML, CSS, JavaScript (ES6), NodeJS, ExpressJS, ReactJS, MongoDB, Git, Linux, Shell Scripting and Python, RESTful APIs, UI/UX Design and CI/CD using Jenkins
- Developed a number of MERN applications by involving Agile Methodologies, which can be found on my [GitHub profile](#).

### Software Engineer @ L&T Infotech

July 2018 - August 2020 // Pune, MH, India

- Worked primarily with C# .NET Framework, J2EE and MS SQL Server to develop and enhance applications at both Backend and Frontend for a range of Application including Desktop Apps and Web Services (SOAP and REST) by Utilizing Agile Software Development methodology for an Insurance Client.
- Worked in a team of cross skilled developers to design a system being used by more than 3000 daily users for automating the process of generating Legal documents using the data provided by the user at the UI. Developed and maintained the backend APIs involved in the process.
- **Key Responsibilities:** Maintained and Enhanced WPF Application, Developed APIs and Web Services using C# (.NET Framework) and LINQ to be consumed by different applications of the Project. Also developed and deployed various Batch (console) applications which resides on Autostart and are run on a fixed intervals.

### Software Engineering Intern @ Zensar Technologies

April 2017 - July 2017 // Pune, MH, India

- Learned about developing project plans for IT projects involving information such as Project Objectives, Technologies, System, etc. along with various SDLC processes.
- **Key Responsibility :** Was involved in developing a Web Application about online Ticket Booking system using Java Servlets as Server side and JSP, JavaScript, HTML and CSS as the client side technologies.

## 🎓 Education

### Bharati Vidyapeeth University College of Engineering

2014 - 2018 // Pune, MH, India

Bachelor of Technology in Information Technology

### Jawaharlal Nehru School

2013 - 2014 // Bhopal, MP, India

Computer Science, Mathematics, Physics, Chemistry & English

## Interests

Trekking

Travelling

Rubix Cube

Video Games

Reading

Biking
